Dear Mr. Eaden:

RE: Coverage Under the Storm Water Baseline General Permit

Permit Number: **SO3-000949**

Facility\Site Name: Puget Sound Truck Lines, Inc.
Address: 7303 - 8th Avenue S.
Seattle, WA 98108

The Washington Department of Ecology has reviewed your application for coverage under the Storm Water Baseline General Permit. We are granting coverage under the permit as of the date indicated on the cover page of the enclosed permit.

Please note your Permit Number on this letter and on the cover page of the enclosed permit. Use this number in any future correspondence (e.g., submitting a Notice of Termination, or a Notice of Intent because of a change of information) with Ecology.

Please read the enclosed permit carefully. As a permittee, you are legally obligated to comply with its terms and conditions. A document called a Fact Sheet has been prepared by Ecology which helps to explain the permit. You may request a copy of the Fact Sheet by calling (206) 438-7034.

The most significant requirement of the permit is the development of a Storm Water Pollution Prevention Plan. Plan requirements for industrial facilities are given in Special Condition S9. The purpose of Storm Water Pollution Prevention Plans is to reduce, eliminate, or prevent the pollution of storm water through the application of Best Management Practices. Such plans are to be implemented within the time frames identified in Special Condition S1.

There is currently no fee associated with this permit. According to state law, Ecology must charge an annual fee for its discharge permits. Ecology will hold public meetings and hearings in 1993 to establish a fee(s) for this permit through amendment to its wastewater discharge permit fee regulation. Ecology will notify permittees of permit fee charges by mailed billing statements. Fees for coverage under this permit will be collected semi-annually beginning in the state's 1994 fiscal year (July 1993 - June 1994).
